

set your sights higher

Graduate opportunities with a difference

Help set the standard in leading-edge technology developments that can make a real difference to international security. With L-3 TRL, you could make a vital contribution to our sophisticated communications solutions that help safeguard people and information worldwide from terrorist threats.

As a fast growing, dynamic company, we are world leaders in the design, development and manufacture of satellite and radio communication systems that locate, monitor, defend and secure communications for government and defence organisations worldwide.

Based in Gloucestershire, L-3 TRL has a reputation for technical excellence with a strong commitment to satisfy our customers' needs.

If you have a passion for innovative technology with an Electronics, Electrical Engineering or similar degree, we have some excellent opportunities to offer.

We are actively recruiting graduates who are interested in developing careers in the following areas:

- Software (C/C++/C#)
- Digital design
- Digital Signal Processing (DSP)
- Radio Frequency (RF)
- VHDL/FPGA

If you'd like a career in this exciting, fast-track environment, please send a copy of your CV together with a cover letter/email detailing your course modules and projects completed so far to:

recruit.trl@L-3Com.com

L-3 TRL is an equal opportunities employer. We encourage diversity and welcome applications from all areas of the community.
